

*TRN312: Sustainability Issues in Ethics Society and Law  
Speaker Series*

# Dayna Scott

*A Feminist Political Economy of Pollution:  
Advancing Analytics and Ethics on Toxics and Gender*

**Wednesday March 9**  
**4:10pm - 6:00pm**

*Trinity Integrated  
Sustainability  
Initiative*

Contemporary exposures to toxics flow from extractive logics endemic to capitalism, but they cannot be conceived as just emissions trailing in the wake of extractive industries. Instead we must recognize the exposures are “built-into” those systems and see that they are fuelled by the same hierarchies – of gender, race, Indigeneity etc, that drive accumulation. To overcome these dynamics, **I argue that we need to sharpen our analytics – and expand our ethics.**
